# Accepted Manuscript

Rapid prediction of single green coffee bean moisture and lipid content by hyperspectral imaging

Nicola Caporaso, Martin B. Whitworth, Stephen Grebby, Ian D. Fisk

PII: S0260-8774(18)30021-9

DOI: 10.1016/j.jfoodeng.2018.01.009

Reference: JFOE 9142

To appear in: *Journal of Food Engineering*

Received Date: 13 September 2017

Revised Date: 4 December 2017

Accepted Date: 16 January 2018

Please cite this article as: Caporaso, N., Whitworth, M.B., Grebby, S., Fisk, I.D., Rapid prediction of single green coffee bean moisture and lipid content by hyperspectral imaging, *Journal of Food Engineering* (2018), doi: 10.1016/j.jfoodeng.2018.01.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
