Title: Design and implementation of a wireless sensor network for temperature sensing in hostile environments

Author: <ce:author id="aut0005" biographyid="vt0005" orcid="0000-0001-5012-443X"> E. Sisinni A. Depari A. Flammini

PII: S0924-4247(15)30225-9
DOI: http://dx.doi.org/doi:10.1016/j.sna.2015.11.012
Reference: SNA 9403

To appear in: *Sensors and Actuators A*

Received date: 15-7-2015
Revised date: 12-11-2015
Accepted date: 12-11-2015

Please cite this article as: E.Sisinni, A.Depari, A.Flammini, Design and implementation of a wireless sensor network for temperature sensing in hostile environments, Sensors and Actuators: A Physical http://dx.doi.org/10.1016/j.sna.2015.11.012

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
