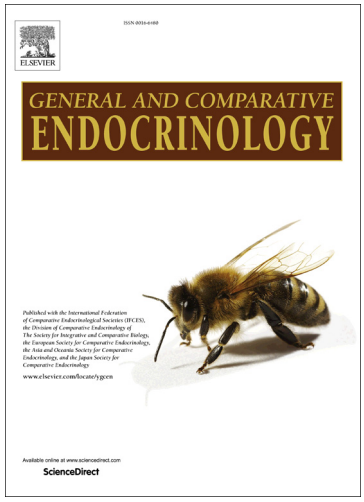
Accepted Manuscript



Landmark Discoveries in Elucidating the Origins of the Hypothalamic-Pituitary System From th Perspective of a Basal Vertebrate, Sea Lamprey

Stacia A. Sower

PII: S0016-6480(17)30648-2
DOI: https://doi.org/10.1016/j.ygcen.2017.10.016
Reference: YGCEN 12788

To appear in: *General and Comparative Endocrinology*

Received Date: 14 September 2017
Accepted Date: 26 October 2017

Please cite this article as: Sower, S.A., Landmark Discoveries in Elucidating the Origins of the Hypothalamic-Pituitary System From th Perspective of a Basal Vertebrate, Sea Lamprey, *General and Comparative Endocrinology* (2017), doi: https://doi.org/10.1016/j.ygcen.2017.10.016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
