Coarse-grained cryogenic aragonite as end-member of mineral formation in dolomite caves

Detlev K. Richter, Denis Scholz, Niels Jöns, Rolf D. Neuser, Sebastian F.M. Breitenbach

PII: S0037-0738(18)30193-3
DOI: doi:[10.1016/j.sedgeo.2018.08.006](https://doi.org/10.1016/j.sedgeo.2018.08.006)
Reference: SEDGEO 5386
To appear in: *Sedimentary Geology*
Received date: 10 June 2018
Revised date: 2 August 2018
Accepted date: 6 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
