Evaluating the state of stress and seismic hazard in Thailand and vicinity through finite element modeling

Beth Meyers, Matthew W. Herman, Kevin P. Furlong, Passakorn Pananont

PII: S1367-9120(18)30295-5
DOI: <https://doi.org/10.1016/j.jseaes.2018.07.030>
Reference: JAES 3592

To appear in: *Journal of Asian Earth Sciences*

Received Date: 20 February 2018
Revised Date: 7 June 2018
Accepted Date: 20 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Evaluating the state of stress and seismic hazard in Thailand and vicinity through finite element modeling
