

## Accepted Manuscript

Title: Scaling up the production of sugars from agricultural biomass by ultrafast hydrolysis in supercritical water

Authors: Celia M. Martínez, Tijana Adamovic, Danilo A. Cantero, M.J. Cocero

PII: S0896-8446(18)30473-X  
DOI: <https://doi.org/10.1016/j.supflu.2018.08.017>  
Reference: SUPFLU 4360

To appear in: *J. of Supercritical Fluids*

Received date: 15-7-2018  
Revised date: 26-8-2018  
Accepted date: 27-8-2018

Please cite this article as: Martínez CM, Adamovic T, Cantero DA, Cocero MJ, Scaling up the production of sugars from agricultural biomass by ultrafast hydrolysis in supercritical water, *The Journal of Supercritical Fluids* (2018), <https://doi.org/10.1016/j.supflu.2018.08.017>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Scaling up the production of sugars from agricultural biomass by ultrafast hydrolysis in supercritical water
