Fabrication of porous carbon nitride foams/acrylic resin composites for efficient oil and organic solvents capture

Xiaohai Bu, Yi Lu, Shengwang Chen, Dongxian Li, Zewu Zhang, Ping Qian

PII: S1385-8947(18)31562-6
DOI: <https://doi.org/10.1016/j.cej.2018.08.088>
Reference: CEJ 19702

To appear in: *Chemical Engineering Journal*

Received Date: 4 May 2018
Revised Date: 8 August 2018
Accepted Date: 13 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
