This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- We focus on the generalized version of the minimum spanning tree problem
- We describe a two-level solution approach for solving this problem
- Our method is obtained by decomposing the problem into two smaller subproblems
- Extensive computational results are reported and discussed
- The obtained results show an improvement in the quality of the achieved solutions
