

Accepted Manuscript

A surface enhanced Raman scattering based colloid nanosensor for developing
Therapeutic Drug Monitoring

Lucio Litti, Andrea Ramundo, Francesca Biscaglia, Giuseppe Toffoli, Marina
Gobbo, Moreno Meneghetti

PII: S0021-9797(18)31026-9
DOI: <https://doi.org/10.1016/j.jcis.2018.08.107>
Reference: YJCIS 24040

To appear in: *Journal of Colloid and Interface Science*

Received Date: 4 June 2018
Revised Date: 26 July 2018
Accepted Date: 28 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A surface enhanced Raman scattering based colloid nanosensor for developing Therapeutic Drug Monitoring
