We confirm that there are no known conflicts of interest associated with this publication and there has been no financial support for this work that could have influenced its outcome. The researchers independently collected, analyzed, and interpreted the results and have no financial interests in the results of this study. Furthermore, dissemination of the results of this study does not constitute endorsement by the researchers or their institutional affiliations. This study was conducted with the approval of the Institutional Review Board of Kharazmi University, Islamic Republic of Iran. This study was registered at UMIN Clinical Trials Registry (UMIN-CTR) website before the first patient enrolment, and the unique trail number is UMIN000031611.
