Acknowledgements

We thank D. L. Gaviria and B. O. Cuadros for their assistance with the conceptualization of the research questions and their constant support throughout the data collection phase. We would further like to acknowledge the professor and student participants for their collaboration as well as both communities for welcoming and hosting us with open arms.

Funding

This work was supported by funding from the Banting and Best Canada Graduate Scholarship Award (to A. Schneider); Canadian Nurses Foundation (to L. Stephens); and McGill Global Health Programs (to A. Schneider and L. Stephens).
