This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Research Highlights

- A state-of-the-art survey on region based image fusion is presented.
- A first hand classification of region based fusion methods is fostered.
- A comprehensive comparison among the existing methods is highlighted.
- A detailed analysis with encouraging results is presented.
- This survey may attract researchers to explore the domain of region based fusion.
