Effect of a catalytic segment on flame stability in a micro combustor with controlled wall temperature profile

Shixuan Wang, Linhong Li, Yongfang Xia, Aiwu Fan, Hong Yao

PII: S0360-5442(18)31884-X
DOI: 10.1016/j.energy.2018.09.120
Reference: EGY 13814
To appear in: *Energy*
Received Date: 04 April 2018
Accepted Date: 18 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Effect of a catalytic segment on flame stability in a micro**
2 **combustor with controlled wall temperature profile**
