

## Accepted Manuscript

Title: A force profile analysis comparison between functional data analysis, statistical parametric mapping and statistical non-parametric mapping in on-water single sculling

Authors: John Warmenhoven, Andrew Harrison, Mark A. Robinson, Jos Vanrenterghem, Norma Bargary, Richard Smith, Stephen Cobley, Conny Draper, Cyril Donnelly, Todd Pataky

PII: S1440-2440(18)30091-4  
DOI: <https://doi.org/10.1016/j.jsams.2018.03.009>  
Reference: JSAMS 1830

To appear in: *Journal of Science and Medicine in Sport*

Received date: 27-10-2017  
Revised date: 16-1-2018  
Accepted date: 14-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A force profile analysis comparison between functional data analysis, statistical parametric mapping and statistical non-parametric mapping in on-water single sculling**
