Accepted Manuscript

A semi-Lagrangian approach for numerical simulation of coupled Burgers' equations

Soyoon Bak, Philsu Kim, Dojin Kim

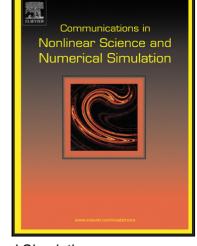

PII: \$1007-5704(18)30287-9

DOI: https://doi.org/10.1016/j.cnsns.2018.09.007

Reference: CNSNS 4634

To appear in: Communications in Nonlinear Science and Numerical Simulation

Received date: 9 December 2017 Revised date: 25 July 2018 Accepted date: 8 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

• Applications of the proposed BSLM in nonlinear differential equations are discussed.

• The possibility to apply the method in the KP equations is suggested.
