Silk sericin: A versatile material for tissue engineering and drug delivery

Lallepak Lamboni, Mario Gauthier, Guang Yang, Qun Wang

PII: S0734-9750(15)30049-5
DOI: doi: [10.1016/j.biotechadv.2015.10.014](https://doi.org/10.1016/j.biotechadv.2015.10.014)
Reference: JBA 6987

To appear in: *Biotechnology Advances*

Received date: 20 February 2015
Revised date: 24 October 2015
Accepted date: 30 October 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Silk Sericin: a Versatile Material for Tissue Engineering and Drug Delivery
