Regulation of Epithelial to Mesenchymal Transition by Bone Morphogenetic Proteins

Natasha McCormack, Shirley O'Dea

PII: S0898-6568(13)00292-1
DOI: doi: [10.1016/j.cellsig.2013.09.012](https://doi.org/10.1016/j.cellsig.2013.09.012)
Reference: CLS 7980

To appear in: *Cellular Signalling*

Received date: 23 May 2013
Revised date: 2 September 2013
Accepted date: 6 September 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Regulation of Epithelial to Mesenchymal Transition by Bone Morphogenetic Proteins
