Structure-activity relationship of procyanidins on advanced glycation end products formation and corresponding mechanisms

Yuanyuan Chen, Shimiao Tang, Yashu Chen, Roujie Zhang, Mengzhou Zhou, Chao Wang, Nianjie Feng, Qian Wu

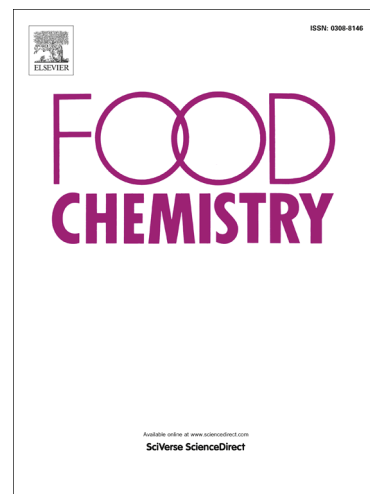

PII: S0308-8146(18)31493-6
DOI: <https://doi.org/10.1016/j.foodchem.2018.08.090>
Reference: FOCH 23432

To appear in: *Food Chemistry*

Received Date: 14 June 2018
Revised Date: 20 August 2018
Accepted Date: 21 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Structure-activity relationship of procyanidins on advanced glycation
end products formation and corresponding mechanisms**
