Metal Ion Effect on the Supramolecular Structures of Metalloporphyrins on Single-Walled Carbon Nanotube Surface

Ahmed I. A. Abd El-Mageed, Takuji Ogawa

PII: S0169-4332(18)32320-1
DOI: <https://doi.org/10.1016/j.apsusc.2018.08.177>
Reference: APSUSC 40214

To appear in: *Applied Surface Science*

Received Date: 18 May 2018
Revised Date: 2 August 2018
Accepted Date: 21 August 2018

Please cite this article as: A. I. A. Abd El-Mageed, T. Ogawa, Metal Ion Effect on the Supramolecular Structures of Metalloporphyrins on Single-Walled Carbon Nanotube Surface, *Applied Surface Science* (2018), doi: <https://doi.org/10.1016/j.apsusc.2018.08.177>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Metal Ion Effect on the Supramolecular Structures of Metalloporphyrins on Single-Walled Carbon Nanotube Surface†
