Tetrahydrobiopterin improves hippocampal nitric oxide-linked long-term memory

Alexandra Latini, Lucila de Bortoli da Silva, Débora da Luz Scheffer, Ananda Christina Staats Pires, Filipe José de Matos, Renata T. Nesi, Karina Ghisoni, Roberta de Paula Martins, Paulo Alexandre de Oliveira, Rui D. Prediger, Marisa Gherzi, Laura Gabach, Mariela Fernanda Pérez, Susana Rubiales-Barioglio, Rita Raisman-Vozari, Raymond Mongeau, Laurence Lanfumey, Aderbal Silva Aguiar

PII: S1096-7192(18)30145-8
DOI: doi:[10.1016/j.ymgme.2018.06.003](https://doi.org/10.1016/j.ymgme.2018.06.003)
Reference: YMGME 6361

To appear in: *Molecular Genetics and Metabolism*

Received date: 13 March 2018
Revised date: 9 June 2018
Accepted date: 9 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Tetrahydrobiopterin improves hippocampal nitric oxide-linked long-term memory
