Title: Comparison of unbiased stereological estimation of total number of cresyl violet stained neurons and parvalbumin positive neurons in the adult human spiral ganglion

Authors: C. Kaur, I. Pal, S. Saini, T.G. Jacob, T.C. Nag, A. Thakar, D.N. Bhardwaj, T.S. Roy

PII: S0891-0618(17)30037-6
DOI: <http://dx.doi.org/doi:10.1016/j.jchemneu.2017.06.004>
Reference: CHENEU 1498

To appear in:

Received date: 9-3-2017
Revised date: 6-6-2017
Accepted date: 15-6-2017

Please cite this article as: Kaur, C., Pal, I., Saini, S., Jacob, T.G., Nag, T.C., Thakar, A., Bhardwaj, D.N., Roy, T.S., Comparison of unbiased stereological estimation of total number of cresyl violet stained neurons and parvalbumin positive neurons in the adult human spiral ganglion. *Journal of Chemical Neuroanatomy* <http://dx.doi.org/10.1016/j.jchemneu.2017.06.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Comparison of unbiased stereological estimation of total number of cresyl violet stained neurons and parvalbumin positive neurons in the adult human spiral ganglion
