Applicability of different brewhouse technologies and gluten-minimization treatments for the production of gluten-free (barley) malt beers: Pilot-to industrial-scale

H.G. Watson, D. Vanderputten, A. Van Landschoot, A.I. Decloedt

PII: S0260-8774(18)30403-5

DOI: [10.1016/j.jfoodeng.2018.09.015](https://doi.org/10.1016/j.jfoodeng.2018.09.015)

Reference: JFOE 9402

To appear in: *Journal of Food Engineering*

Received Date: 28 August 2017

Revised Date: 16 August 2018

Accepted Date: 13 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Applicability of different brewhouse technologies and gluten-minimization treatments**
2 **for the production of gluten-free (barley) malt beers: pilot- to industrial-scale**
