This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Limitations:

- 1-Although the Constances cohort was designed as a randomly selected representative sample of French adults, the current sample may not be representative of the general population.
- 2-The cross-sectional nature of the analyses warrants the results to be confirmed by longitudinal analyses.
- 3-Additional confounding factors might have not been considered which increases the possibility of residual confounding.
