Nitritation, Nitrous Oxide Emission Pathways and *in situ* Microbial Community in a Modified University of Cape Town Process

Ning Li, Wei Zeng, Baogui Wang, Shuaishuai Li, Yu Guo, Yongzhen Peng

PII: S0960-8524(18)31360-9
DOI: <https://doi.org/10.1016/j.biortech.2018.09.107>
Reference: BITE 20523

To appear in: *Bioresource Technology*

Received Date: 11 August 2018
Revised Date: 19 September 2018
Accepted Date: 20 September 2018

Please cite this article as: Li, N., Zeng, W., Wang, B., Li, S., Guo, Y., Peng, Y., Nitritation, Nitrous Oxide Emission Pathways and *in situ* Microbial Community in a Modified University of Cape Town Process, *Bioresource Technology* (2018), doi: <https://doi.org/10.1016/j.biortech.2018.09.107>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Nitritation, Nitrous Oxide Emission Pathways and *in situ*
Microbial Community in a Modified University of Cape Town
Process**
