

## Accepted Manuscript

Robust demarcation of fourteen different species groups within the genus *Streptococcus* based on genome-based phylogenies and molecular signatures

Sudip Patel, Radhey S. Gupta

PII: S1567-1348(18)30727-5  
DOI: doi:[10.1016/j.meegid.2018.09.020](https://doi.org/10.1016/j.meegid.2018.09.020)  
Reference: MEEGID 3661  
To appear in: *Infection, Genetics and Evolution*  
Received date: 19 April 2018  
Revised date: 12 September 2018  
Accepted date: 19 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Robust Demarcation of Fourteen Different Species Groups within the Genus *Streptococcus*  
Based on Genome-based Phylogenies and Molecular Signatures

Sudip Patel and Radhey S. Gupta\*
