Effects of nitro- and amino-group on the antioxidant activity of genistein: a theoretical study

Lingling Wang, Fengjian Yang, Xiuhua Zhao, Yuanzuo Li

PII: S0308-8146(18)31679-0

DOI: <https://doi.org/10.1016/j.foodchem.2018.09.108>

Reference: FOCH 23595

To appear in: *Food Chemistry*

Received Date: 17 May 2018

Revised Date: 15 September 2018

Accepted Date: 18 September 2018

Please cite this article as: Wang, L., Yang, F., Zhao, X., Li, Y., Effects of nitro- and amino-group on the antioxidant activity of genistein: a theoretical study, *Food Chemistry* (2018), doi: <https://doi.org/10.1016/j.foodchem.2018.09.108>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Effects of nitro- and amino-group on the antioxidant activity of
genistein: a theoretical study**
