lonic to covalent glass network transition: Effects on elastic and vibrational properties according to ultrasonic echography and Raman spectroscopy

P. Mpourazanis, G. Stogiannidis, S. Tsigoias, G.N. Papatheodorou, A.G. Kalampounias

PII: S0022-3697(18)31032-1

DOI: 10.1016/j.jpcs.2018.10.010

Reference: PCS 8762

To appear in: Journal of Physics and Chemistry of Solids

Received Date: 18 April 2018

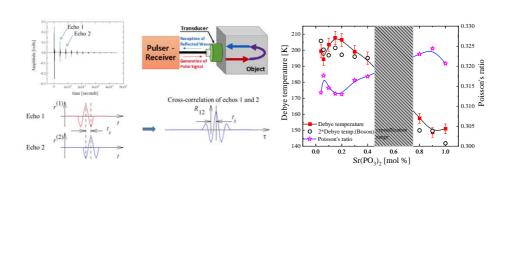

Revised Date: 4 October 2018 Accepted Date: 6 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
