

## Accepted Manuscript

Free in-plane vibration analysis of elastically restrained annular panels made of functionally graded material

Peng Lyu, Jingtao Du, Zhigang Liu, Peng Zhang

PII: S0263-8223(17)30464-6

DOI: <http://dx.doi.org/10.1016/j.compstruct.2017.06.065>

Reference: COST 8652

To appear in: *Composite Structures*

Received Date: 9 February 2017

Revised Date: 13 June 2017

Accepted Date: 29 June 2017

Please cite this article as: Lyu, P., Du, J., Liu, Z., Zhang, P., Free in-plane vibration analysis of elastically restrained annular panels made of functionally graded material, *Composite Structures* (2017), doi: <http://dx.doi.org/10.1016/j.compstruct.2017.06.065>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Free in-plane vibration analysis of elastically restrained annular panels made of  
functionally graded material
