### **Author Affiliations:**

Husnain Haider, Assistant Professor, Civil Engineering Department, Qassim University, Saudi Arabia

Kasun Hewage, Professor, School of Engineering, University of British Columbia (Okanagan), Kelowna, BC, Canada

Adil Umer, Construction Section, Alberta Transportation, Peace River, AB, Canada

Rajeev Ruparathna, PhD Candidate, School of Engineering, University of British Columbia (Okanagan), Kelowna, BC, Canada

Gyan Chhipi-Shrestha, PhD Candidate, School of Engineering, University of British Columbia (Okanagan), Kelowna, BC, Canada

Keith Culver, Professor, Faculty of Management, University of British Columbia (Okanagan), Kelowna, BC, Canada

Mark Holland, Partner, Board of Advisors, New Monaco Enterprise, Kelowna, BC, Canada

James Kay, Development Manager, City of Kelowna, Kelowna, BC, Canada

Rehan Sadiq, Professor, School of Engineering, University of British Columbia (Okanagan), Kelowna, BC, Canada

### **Highlights**

- A sustainability assessment framework is developed for small-sized urban neighbourhoods.
- Framework covers all the dimensions of sustainability with the most suitable and comprehensive set of SIs.
- Framework can assist planners to provide inputs based on to their areas of expertise
- Uncertainties due to data limitations and vagueness in expert opinion are accommodate with the help of fuzzy logic application.
