This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights:

- We propose a platform to enhance knowledge workers'employability.
- The web platform targets both learners and recruiters.
- We use an ontology-based recommendation mechanism for learning communities.
- The platform was experimentally exploited and positive feedback was registered.
- An online survey of 391 students showed a high degree of perceived usefulness.
