

## Accepted Manuscript

Reusability of Open Source Software across Domains: A Case Study

Maria-Eleni Paschali , Apostolos Ampatzoglou , Stamatia Bibi ,  
Alexander Chatzigeorgiou , Ioannis Stamelos

PII: S0164-1212(17)30199-1  
DOI: [10.1016/j.jss.2017.09.009](https://doi.org/10.1016/j.jss.2017.09.009)  
Reference: JSS 10036

To appear in: *The Journal of Systems & Software*

Received date: 24 October 2016  
Revised date: 3 August 2017  
Accepted date: 8 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Highlights**

- Investigation of domain-specific reuse opportunities
- Empirical comparison of application domains in terms of availability of reusable software assets
- Empirical comparison of application domains in terms of structural reusability
