This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- **Proposes a systematic model of dynamics between short-term tactics and long-term strategies**
- **Simulate profit gap closure predictions based on model and cross-sectional survey data**
- **Find support for performance threats related to familiarity and perceived control biases**
