Statistical Comparison of Image Fusion Algorithms: Recommendations

Z. Liu, E. Blasch, V. John

PII: S1566-2535(16)30242-1
DOI: [10.1016/j.inffus.2016.12.007](https://doi.org/10.1016/j.inffus.2016.12.007)
Reference: INFFUS 833

To appear in: *Information Fusion*

Received date: 19 May 2016
Revised date: 19 December 2016
Accepted date: 20 December 2016

Please cite this article as: Z. Liu, E. Blasch, V. John, Statistical Comparison of Image Fusion Algorithms: Recommendations, *Information Fusion* (2016), doi: [10.1016/j.inffus.2016.12.007](https://doi.org/10.1016/j.inffus.2016.12.007)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Propose using non-parametric statistical tests for image fusion algorithm comparison;
- Formulate a procedure to apply the statistical comparison for image fusion;
- Demonstrate the feasibility of the proposed methods with data from image fusion research;
- Establish a baseline for the significance in image fusion research;
- Provide implementation code and data to support reproducible research.
