Title: New strategy of multiple emulsion formation based on the interactions between polymeric emulsifier and natural ingredients

Author: Ugne Cizauskaite Ruta Marksiene Vilma Viliene
Romas Gruzauskas Jurga Bernatoniene

PII: S0927-7757(16)31028-7
DOI: <http://dx.doi.org/doi:10.1016/j.colsurfa.2016.12.002>
Reference: COLSUA 21208

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 13-9-2016
Revised date: 22-11-2016
Accepted date: 1-12-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

New strategy of multiple emulsion formation based on the interactions between polymeric emulsifier and natural ingredients
