A novel ultrafiltration grade nickel iron oxide doped hollow fiber mixed matrix membrane: Spinning, characterization and application in heavy metal removal

Mrinmoy Mondal, Madhurima Dutta, Sirshendu De

PII: S1383-5866(17)31192-9

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.07.013>

Reference: SEPPUR 13870

To appear in: *Separation and Purification Technology*

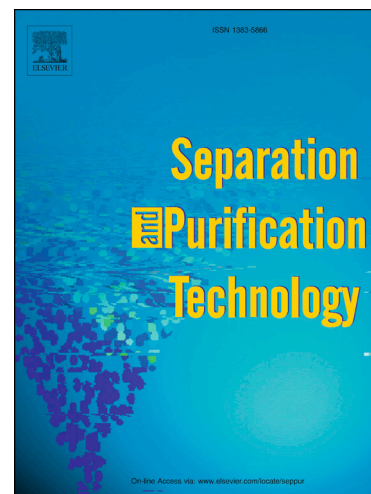

Received Date: 14 April 2017

Revised Date: 6 July 2017

Accepted Date: 6 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A novel ultrafiltration grade nickel iron oxide doped hollow fiber mixed matrix membrane:
Spinning, characterization and application in heavy metal removal**
