Research Paper

Numerical study of the ignition front propagation of different pelletised biomass in a packed bed furnace

Md. Rezwanul Karim, Jamal Naser

PII: S1359-4311(17)33754-7

DOI: <http://dx.doi.org/10.1016/j.applthermaleng.2017.09.061>

Reference: ATE 11118

To appear in: *Applied Thermal Engineering*

Received Date: 2 June 2017

Revised Date: 21 August 2017

Accepted Date: 12 September 2017

Please cite this article as: Md. Rezwanul Karim, J. Naser, Numerical study of the ignition front propagation of different pelletised biomass in a packed bed furnace, *Applied Thermal Engineering* (2017), doi: <http://dx.doi.org/10.1016/j.applthermaleng.2017.09.061>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Numerical study of the ignition front propagation of different pelletised biomass in a packed bed furnace
