

## Accepted Manuscript

On the Application of Polar Representation for Investigating High and Low Cycle Fatigue of Metals

Jafar Albinmoussa

PII: S0142-1123(16)30417-0

DOI: <http://dx.doi.org/10.1016/j.ijfatigue.2016.12.014>

Reference: JIJF 4165

To appear in: *International Journal of Fatigue*

Received Date: 23 September 2016

Revised Date: 29 November 2016

Accepted Date: 3 December 2016

Please cite this article as: Albinmoussa, J., On the Application of Polar Representation for Investigating High and Low Cycle Fatigue of Metals, *International Journal of Fatigue* (2016), doi: <http://dx.doi.org/10.1016/j.ijfatigue.2016.12.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**On the Application of Polar Representation for Investigating  
High and Low Cycle Fatigue of Metals**
