

## Author's Accepted Manuscript

Multivariate analysis of organic acids in fermented food from reversed-phase high-performance liquid chromatography data

Pablo Mortera, Federico A. Zuljan, Christian Magni, Santiago A. Bortolato, Sergio H. Alarcón

PII: S0039-9140(17)30937-2  
DOI: <http://dx.doi.org/10.1016/j.talanta.2017.09.005>  
Reference: TAL17908

To appear in: *Talanta*

Received date: 10 July 2017  
Revised date: 1 September 2017  
Accepted date: 2 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
