Design, synthesis, kinetic mechanism and molecular docking studies of novel 1-pentanoyl-3-arylthioureas as inhibitors of mushroom tyrosinase and free radical scavengers

Fayaz Ali Larik, Aamer Saeed, Pervaiz Ali Channar, Urooj Muqadar, Qamar Abbas, Mubashir Hassan, Sung-Yum Seo, Michael Bolte

PII: S0223-5234(17)30774-2

DOI: [10.1016/j.ejmech.2017.09.059](https://doi.org/10.1016/j.ejmech.2017.09.059)

Reference: EJMECH 9774

To appear in: *European Journal of Medicinal Chemistry*

Received Date: 1 November 2016

Revised Date: 25 September 2017

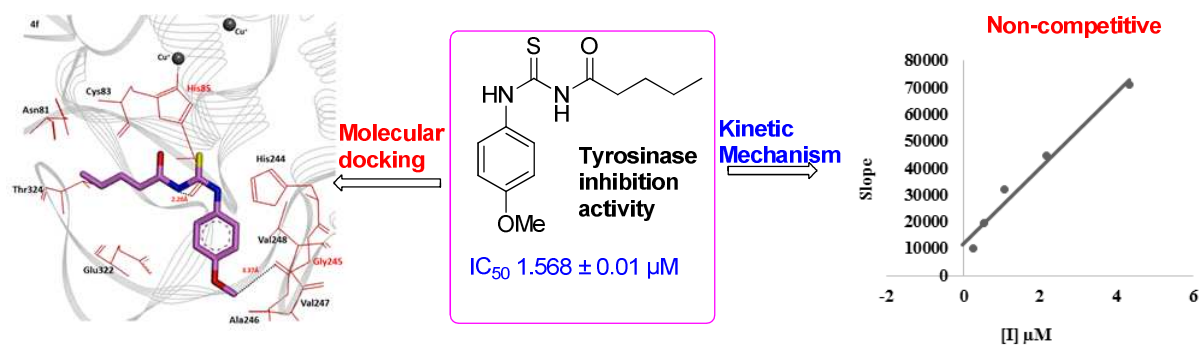

Accepted Date: 27 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
