Accepted Manuscript

Title: Historical milestones and future prospects of cluster ion

beam technology

Author: Isao Yamada

PII: S0169-4332(14)00698-9

DOI: http://dx.doi.org/doi:10.1016/j.apsusc.2014.03.147

Reference: APSUSC 27548

To appear in: APSUSC

Received date: 21-11-2013 Revised date: 23-3-2014 Accepted date: 24-3-2014

Please cite this article as: I. Yamada, Historical milestones and future prospects of cluster ion beam technology, *Applied Surface Science* (2014), http://dx.doi.org/10.1016/j.apsusc.2014.03.147

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

cluster ion beam, industrial applications, low energy interaction, lateral sputtering, nanotechnology
