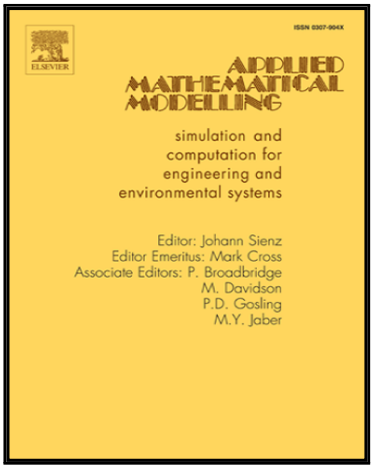
Accepted Manuscript



On the multi-item economic lot-sizing with remanufacturing and uncapacitated production

Jesus O. Cunha, Ioannis Konstantaras, Rafael A. Melo, Angelo Sifaleras

PII: S0307-904X(16)30552-2
DOI: 10.1016/j.apm.2016.10.037
Reference: APM 11398

To appear in: *Applied Mathematical Modelling*

Received date: 9 April 2016
Revised date: 7 September 2016
Accepted date: 10 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- We consider the multi-item lot-sizing with remanufacturing and uncapacitated;
- We show how very high quality solutions by solving each item separately;
- Improves the best known feasible solutions and bounds for the available instances;
- We solved to optimality more than 50% of available instances.
