This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We review 548 papers in the field of corporate social responsibility (CSR) for supply chain management (SCM).
- The sub-fields and their relationships constituting the intellectual structure of CSR for SCM is delineated.
- Pivotal works in establishing foothold in the domain are identified.
- Maps to illustrate the different topic areas of current interests are depicted.
- Future research directions encompassing practical and research fields are proposed.
