Multivesicular body formation enhancement and exosome release during endoplasmic reticulum stress

Soshi Kanemoto, Ryota Nitani, Tatsuhiko Murakami, Masayuki Kaneko, Rie Asada, Koji Matsuhisa, Atsushi Saito, Kazunori Imaizumi

PII: S0006-291X(16)31683-7

DOI: [10.1016/j.bbrc.2016.10.019](https://doi.org/10.1016/j.bbrc.2016.10.019)

Reference: YBBRC 36566

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 21 September 2016

Accepted Date: 7 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Multivesicular body formation enhancement and exosome release during endoplasmic reticulum stress.
