

Accepted Manuscript

Formulation of liposomes functionalized with *Lotus* lectin and effective in targeting highly proliferative cells

Cinzia Della Giovampaola, Antonietta Capone, Leonardo Ermini, Pietro Lupetti, Elisa Vannuccini, Federica Finetti, Sandra Donnini, Marina Ziche, Agnese Magnani, Gemma Leone, Claudio Rossi, Floriana Rosati, Claudia Bonechi

PII: S0304-4165(17)30015-6
DOI: doi:[10.1016/j.bbagen.2017.01.015](https://doi.org/10.1016/j.bbagen.2017.01.015)
Reference: BBAGEN 28741

To appear in: *BBA - General Subjects*

Received date: 16 September 2016
Revised date: 21 December 2016
Accepted date: 13 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Formulation of liposomes functionalized with *Lotus* lectin and effective in targeting highly proliferative cells
