On-site identification of meat species in processed foods by a rapid real-time polymerase chain reaction system

Shunsuke Furutani, Yoshihisa Hagihara, Hidenori Nagai

PII: S0309-1740(16)30413-2

DOI: doi: [10.1016/j.meatsci.2017.04.009](https://doi.org/10.1016/j.meatsci.2017.04.009)

Reference: MESC 7222

To appear in: *Meat Science*

Received date: 21 October 2016

Revised date: 11 March 2017

Accepted date: 18 April 2017

Please cite this article as: Shunsuke Furutani, Yoshihisa Hagihara, Hidenori Nagai , On-site identification of meat species in processed foods by a rapid real-time polymerase chain reaction system. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Mesc*(2017), doi: [10.1016/j.meatsci.2017.04.009](https://doi.org/10.1016/j.meatsci.2017.04.009)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

On-site identification of meat species in processed foods by a rapid real-time polymerase chain reaction system
