The effect of feed supplementation with effective microorganisms (EM) on pro- and anti-inflammatory cytokine concentrations in pigs

Ewa Laskowska, Łukasz Jarosz, Zbigniew Grądzki

PII: S0034-5288(17)30019-X
DOI: doi: [10.1016/j.rvsc.2017.03.008](https://doi.org/10.1016/j.rvsc.2017.03.008)
Reference: YRVSC 3281
To appear in: *Research in Veterinary Science*
Received date: 6 January 2017
Accepted date: 16 March 2017

Please cite this article as: Ewa Laskowska, Łukasz Jarosz, Zbigniew Grądzki , The effect of feed supplementation with effective microorganisms (EM) on pro- and anti-inflammatory cytokine concentrations in pigs. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yrvsc(2017), doi: [10.1016/j.rvsc.2017.03.008](https://doi.org/10.1016/j.rvsc.2017.03.008)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The effect of feed supplementation with effective microorganisms (EM) on pro- and anti-inflammatory cytokine concentrations in pigs
