Thrombin generation as a predictor of thromboembolic events in multiple myeloma patients

Merav Leiba, Sarah Malkiel, Ivan Budnik, Gabriela Rozic, Abraham Avigdor, Adrian Duek, Arnon Nagler, Gili Kenet, Tami Livnat

PII: S1079-9796(17)30103-1

DOI: doi: [10.1016/j.bcmd.2017.03.010](https://doi.org/10.1016/j.bcmd.2017.03.010)

Reference: YBCMD 2173

To appear in: *Blood Cells, Molecules and Diseases*

Received date: 18 March 2017

Accepted date: 21 March 2017

Please cite this article as: Merav Leiba, Sarah Malkiel, Ivan Budnik, Gabriela Rozic, Abraham Avigdor, Adrian Duek, Arnon Nagler, Gili Kenet, Tami Livnat , Thrombin generation as a predictor of thromboembolic events in multiple myeloma patients. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Ybcmd(2017), doi: [10.1016/j.bcmd.2017.03.010](https://doi.org/10.1016/j.bcmd.2017.03.010)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thrombin Generation as a Predictor of Thromboembolic Events in Multiple Myeloma Patients
