This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Is it your disease or the patient's?

Short title: Is it your disease or the patient's?

Funding source: None

Conflict of interest: None

Key terms: Eponyms, Medical writing, Medical nomenclature, Nomenclature, Syndromes

The issue of apostrophe "s" in eponyms has frequently arisen during our Journal Clubs and other seminars. We have encountered an eponym of a particular disease or syndrome
