

# Index to Subjects\*

## A

**Ablation**; see **Catheter ablation**

**Accuracy of results**; see **Reproducibility of results**

### **Adipose tissue**

Brown adipose tissue blood flow and mass in obesity: a contrast ultrasound study in mice (Clerte et al). 2013;26:1465-73

### **Adolescence**

Elevated left ventricular outflow tract velocities on exercise stress echocardiography may be a normal physiologic response in healthy youth (Wittlieb-Weber et al). 2013;26:1372-8

Functional maturation of left and right atrial systolic and diastolic performance in infants, children, and adolescents (Kutty et al). 2013;26:398-409

Tricuspid annular plane systolic excursion in the assessment of right ventricular function in children and adolescents after repair of tetralogy of Fallot (Mercer-Rosa et al). 2013;26:1322-9

### **Aged**

Impact of valvuloarterial impedance on 2-year outcome of patients undergoing transcatheter aortic valve implantation (Katsanos et al). 2013;26:691-8

### **Aging**

Effects of aging and body size on proximal and ascending aorta and aortic arch: inner edge-to-inner edge reference values in a large adult population by two-dimensional transthoracic echocardiography (Mirea et al). 2013;26:419-27

### **American Society of Echocardiography**

American Society of Echocardiography: Remote Echocardiography with Web-based Assessments for Referrals at a Distance (ASE-REWARD) Study (Singh et al). 2013;26:221-33 (Special article)

American Society of Echocardiography Cardiovascular Technology and Research Summit: a roadmap for 2020 (Pellikka et al). 2013;26:325-38 (ASE report)

American Society of Echocardiography clinical recommendations for multi-modality cardiovascular imaging of patients with pericardial disease: endorsed by the Society for Cardiovascular Magnetic Resonance and Society of Cardiovascular Computed Tomography (Klein et al). 2013;26:965-1012 (ASE expert consensus statement)

Basic perioperative transesophageal echocardiography examination: a consensus statement of the American Society of Echocardiography and the Society of Cardiovascular Anesthesiologists (Reeves et al). 2013;26:443-56 (ASE consensus statement)

Expert consensus for multi-modality imaging evaluation of cardiovascular complications of radiotherapy in adults: a report from the European Association of Cardiovascular Imaging and the American Society of Echocardiography (Lancellotti et al). 2013;26:1013-32 (Expert consensus statement). Correction 2013;26:1305

Focused cardiac ultrasound: recommendations from the American Society of Echocardiography (Spencer et al). 2013;26:567-81 (ASE expert consensus statement)

Guidelines for performing a comprehensive transesophageal echocardiographic examination: recommendations from the American Society of Echocardiography and the Society of Cardiovascular Anesthesiologists (Hahn et al). 2013;26:921-64 (Guidelines and standards)

The new black bag, *Arrowsmith*, and giving (Martin). 2013;26:234-6 (Editorial comment)

### **Anesthesia**

Basic perioperative transesophageal echocardiography examination: a consensus statement of the American Society of Echocardiography and the

Society of Cardiovascular Anesthesiologists (Reeves et al). 2013;26:443-56 (ASE consensus statement)

Guidelines for performing a comprehensive transesophageal echocardiographic examination: recommendations from the American Society of Echocardiography and the Society of Cardiovascular Anesthesiologists (Hahn et al). 2013;26:921-64 (Guidelines and standards)

Impact of propofol anesthesia induction on cardiac function in low-risk patients as measured by intraoperative Doppler tissue imaging (Yang et al). 2013;26:727-35

### **Animal studies**

Brown adipose tissue blood flow and mass in obesity: a contrast ultrasound study in mice (Clerte et al). 2013;26:1465-73

Comparison of echocardiographic measurements of left ventricular volumes to full volume magnetic resonance imaging in normal and diseased rats (Arias et al). 2013;26:910-8

Effect of pharmacologic increases in afterload on left ventricular rotation and strain in a rabbit model (Ho et al). 2013;26:674-82

Longitudinal strain impairment as a marker of the progression of heart failure with preserved ejection fraction in a rat model (Koshizuka et al). 2013;26:316-23

Septal ablation induced by transthoracic high-intensity focused ultrasound in canines (Rong et al). 2013;26:1228-34

### **Anoxia**

Left ventricular adaptation to acute hypoxia: a speckle-tracking echocardiography study (Dedobbeleer et al). 2013;26:736-45

### **Aorta**

Aortic arch vessel disease and rationale for echocardiographic screening (Ruegg et al). 2013;26:114-25 (Review article)

Doppler flow patterns in the right ventricle-to-pulmonary artery shunt and neo-aorta in infants with single right ventricle anomalies: impact on outcome after initial staged palliations (Frommelt et al). 2013;26:521-9

Echocardiographic methods, quality review, and measurement accuracy in a randomized multicenter clinical trial of Marfan syndrome (Tierney et al). 2013;26:657-66

Increased aortic pulse wave velocity as measured by echocardiography is strongly associated with poor prognosis in patients with heart failure (Bonapace et al). 2013;26:714-20

Patterns of aortic dilatation in bicuspid aortic valve-associated aortopathy (Khoo et al). 2013;26:600-5

Three-dimensional transesophageal echocardiographic evaluation of coronary involvement in patients with acute type A aortic dissection (Sasaki et al). 2013;26:837-45

### **Aorta, thoracic**

Effects of aging and body size on proximal and ascending aorta and aortic arch: inner edge-to-inner edge reference values in a large adult population by two-dimensional transthoracic echocardiography (Mirea et al). 2013;26:419-27

### **Aortic coarctation**

A clinical prediction model to estimate the risk for coarctation of the aorta in the presence of a patent ductus arteriosus (Soslow et al). 2013;26:1379-87

Comparability of Z-score equations of cardiac structures in hypoplastic left heart complex (den Dekker et al). 2013;26:1314-21

### **Aortic valve**

Impact of transapical aortic valve replacement on apical wall motion (Barbash et al). 2013;26:255-60

Impact of valvuloarterial impedance on 2-year outcome of patients undergoing transcatheter aortic valve implantation (Katsanos et al). 2013;26:691-8

Left ventricular global systolic longitudinal deformation and prognosis 1 year after femoral and apical transcatheter aortic valve implantation (Løgstrup et al). 2013;26:246-54

Left ventricular noncompaction in patients with bicuspid aortic valve (Agarwal et al). 2013;26:1306-13

Patterns of aortic dilatation in bicuspid aortic valve-associated aortopathy (Khoo et al). 2013;26:600-5

Predicting paravalvular regurgitation following transcatheter valve replacement: utility of a novel method for three-dimensional echocardiographic measurements of the aortic annulus (Hahn et al). 2013;26:1043-52

---

Indexes to the Twentieth Annual Scientific Sessions abstracts are located in the May issue.

\*January, pp 1-104; February, pp 105-220; March, pp 221-324; April, pp 325-442; May, pp 443-566; June, pp 567-682; July, pp 683-800; August, pp 801-920; September, pp 921-1106; October, pp 1107-1234; November, pp 1235-1364; December, pp 1365-1514.

**Volume 26 Number 12**

**Journal of the American Society of Echocardiography 1495**

Short-term effects of transcatheter aortic valve implantation on left atrial mechanics and left ventricular diastolic function (Spethmann et al). 2013;26:64-71

Value of three-dimensional speckle-tracking in detecting left ventricular dysfunction in patients with aortic valvular diseases (Li et al). 2013;26:1245-52

#### **Aortic valve stenosis**

The impact of aortic valve replacement for aortic stenosis on mitral valve dynamics: a surgeon's view (Akins). 2013;26:615-7 (Editorial comment)

Implementation of echocardiography core laboratory best practices: a case study of the PARTNER I trial (Douglas et al). 2013;26:348-58

Left-right ventricular interactions in pediatric aortic stenosis: right ventricular myocardial strain before and after aortic valvuloplasty (Friedberg et al). 2013;26:390-7

Mitral valve dynamics in severe aortic stenosis before and after aortic valve replacement (Tsang et al). 2013;26:606-14

A novel and simple method using pocket-sized echocardiography to screen for aortic stenosis (Abe et al). 2013;26:589-96

Pocket-size devices, physical examination, and high-end echocardiography machines in perspective: are the times a'changing? (Cardim). 2013;26:597-9 (Editorial comment)

Real-time three-dimensional transesophageal echocardiography adds value to transcatheter aortic valve implantation (Smith et al). 2013;26:359-69

Relationship between longitudinal strain and symptomatic status in aortic stenosis (Attias et al). 2013;26:868-74

Strain analysis during exercise in patients with left ventricular hypertrophy: impact of etiology (Schnell et al). 2013;26:1163-9

#### **Aortitis**

The biophysical properties of the aorta are altered following Kawasaki disease (Vaujois et al). 2013;26:1388-96

#### **Arteriosclerosis**

Echo-Doppler assessment of arterial stiffness in pediatric patients with Kawasaki disease (AlHuzaimi et al). 2013;26:1084-9

#### **Arteriovenous fistula**

Intrapulmonary shunt is a potentially unrecognized cause of ischemic stroke and transient ischemic attack (Abushora et al). 2013;26:683-90

#### **Asklepios Study**

Family history of cardiovascular disease and offspring echocardiographic left ventricular structure and function: the Asklepios Study (Van daele et al). 2013;26:1290-7

#### **Atherosclerosis**

Aortic arch vessel disease and rationale for echocardiographic screening (Ruegg et al). 2013;26:114-25 (Review article)

Can carotid bulb plaque assessment rule out significant coronary artery disease? A comparison of plaque quantification by two- and three-dimensional ultrasound (Johri et al). 2013;26:86-95

Carotid artery plaque and progression of coronary artery calcium: the Multi-Ethnic Study of Atherosclerosis (Polak et al). 2013;26:548-55

Carotid intima-media thickness and plaque assessment by trained medical residents: validation and preliminary testing of a training protocol (Aldridge et al). 2013;26:1457-64

Comparison of factors associated with carotid intima-media thickness in the Multi-Ethnic Study of Atherosclerosis (MESA) and the Heinz Nixdorf Recall Study (HNR) (Bauer et al). 2013;26:667-73

#### **Athletes; see Sports**

#### **Atrial fibrillation**

Assessment of left atrial deformation and synchrony by three-dimensional speckle-tracking echocardiography: comparative studies in healthy subjects and patients with atrial fibrillation (Mochizuki et al). 2013;26:165-74

Correlation of CHADS<sub>2</sub> and CHA<sub>2</sub>DS<sub>2</sub>-VASc scores with transesophageal echocardiography risk factors for thromboembolism in a multiethnic United States population with nonvalvular atrial fibrillation (Willens et al). 2013;26:175-84

The role of echocardiography in thromboembolic risk assessment of patients with nonvalvular atrial fibrillation (Providência et al). 2013;26:801-12 (Review article)

Two-dimensional atrial systolic strain imaging predicts atrial fibrillation at 4-year follow-up in asymptomatic rheumatic mitral stenosis (Ancona et al). 2013;26:270-7

#### **Atrial flutter**

Transesophageal echocardiographic screening before atrial flutter ablation: is it necessary for patient safety? (Alyeshmehni et al). 2013;26:1099-105

#### **Atrial function, child**

Functional maturation of left and right atrial systolic and diastolic performance in infants, children, and adolescents (Kutty et al). 2013;26:398-409

#### **Atrial function, left**

Assessment of left atrial deformation and synchrony by three-dimensional speckle-tracking echocardiography: comparative studies in healthy subjects and patients with atrial fibrillation (Mochizuki et al). 2013;26:165-74

Changes in left atrial mechanics following pericardiectomy for pericardial constriction (Motoki et al). 2013;26:640-8

Left atrial function by two-dimensional speckle-tracking echocardiography in patients with severe organic mitral regurgitation: association with guidelines-based surgical indication and postoperative (long-term) survival (Debonnaire et al). 2013;26:1053-62

Left atrial and left ventricular diastolic function in chronic Chagas disease (Nascimento et al). 2013;26:1424-33

#### **atrioventricular septal defects; see Heart septal defects, atrial; Heart septal defects, ventricular**

#### **Autonomic nervous system**

Left ventricular adaptation to acute hypoxia: a speckle-tracking echocardiography study (Dedobbeleer et al). 2013;26:736-45

#### **Autoregulation; see Homeostasis**

## **B**

#### **Balloon dilatation**

Left-right ventricular interactions in pediatric aortic stenosis: right ventricular myocardial strain before and after aortic valvuloplasty (Friedberg et al). 2013;26:390-7

#### **Bicuspid aortic valve; see Heart defects, congenital**

#### **Biophysics**

The biophysical properties of the aorta are altered following Kawasaki disease (Vaujois et al). 2013;26:1388-96

#### **Blood circulation**

Detection of right-to-left atrial communication using agitated saline contrast imaging: experience with 1162 patients and recommendations for echocardiography (Marriott et al). 2013;26:96-102

Validation study of the accuracy of echocardiographic measurements of systemic blood flow volume in newborn infants (Ficial et al). 2013;26:1365-71

#### **Blood flow velocity**

Brown adipose tissue blood flow and mass in obesity: a contrast ultrasound study in mice (Clerte et al). 2013;26:1465-73

Depressed myocardial blood flow reserve in nonischemic dilated cardiomyopathy: findings and explanations (Kaul). 2013;26:288-9 (Editorial comment)

Doppler flow patterns in the right ventricle-to-pulmonary artery shunt and neo-aorta in infants with single right ventricle anomalies: impact on outcome after initial staged palliations (Frommelt et al). 2013;26:521-9

Elevated left ventricular outflow tract velocities on exercise stress echocardiography may be a normal physiologic response in healthy youth (Wittlieb-Weber et al). 2013;26:1372-8

Geometric errors of the pulsed-wave Doppler flow method in quantifying degenerative mitral valve regurgitation: a three-dimensional echocardiography study (Ren et al). 2013;26:261-9

Localized transvalvular pressure gradients in mitral bileaflet mechanical heart valves and impact on gradient overestimation by Doppler (Evin et al). 2013;26:791-800

Nomograms for blood flow and tissue Doppler velocities to evaluate diastolic function in children: a critical review (Cantinotti and Lopez). 2013;26:126-41 (Review article)

Noninvasive assessment of vascular function and hydraulic power and efficiency in pediatric Fontan patients (Myers et al). 2013;26:1221-7

Prognostic value of coronary and microvascular flow reserve in patients with nonischemic dilated cardiomyopathy (Lima et al). 2013;26:278-87

Right isovolumic contraction velocity predicts survival in pulmonary hypertension (Ermende et al). 2013;26:297-306

Validation study of the accuracy of echocardiographic measurements of systemic blood flow volume in newborn infants (Ficial et al). 2013;26:1365-71

#### **Blood glucose**

Differential changes of left ventricular myocardial deformation in diabetic patients with controlled and uncontrolled blood glucose: a three-
