The self-defining axis of symmetry: A new method to determine optimal symmetry and its application and limitation in craniofacial surgery

Dr Markus Martini, MD, DMD, Anne Klausning, MD, Martina Messing-Jünger, MD, PhD, Guido Lüchters, MSc, retired

PII: S1010-5182(17)30223-8

DOI: [10.1016/j.jcms.2017.06.023](https://doi.org/10.1016/j.jcms.2017.06.023)

Reference: YJCMS 2719

To appear in: *Journal of Cranio-Maxillo-Facial Surgery*

Received Date: 24 April 2017

Revised Date: 1 June 2017

Accepted Date: 27 June 2017

Please cite this article as: Martini M, Klausning A, Messing-Jünger M, Lüchters G, The self-defining axis of symmetry: A new method to determine optimal symmetry and its application and limitation in craniofacial surgery, *Journal of Cranio-Maxillofacial Surgery* (2017), doi: 10.1016/j.jcms.2017.06.023.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The self-defining axis of symmetry: A new method to determine optimal symmetry and its application and limitation in craniofacial surgery
